British Grand Offensive Designed to Stem Tide of Indignation at Submarine Situation

FIGURES ON SHIP LOSS APPALLING TO LONDON.

Press Discusses Many Schemes to Do Away with Terrible Menace.

BY ARTHUR H. DRAFER.

LONDON, May 3.—What the British are doing on the western front is just now coming to light. Viewed broadly, the latest offensive, launched by the British is destined as a counter-attack against the German submarine menace and a grand military stroke to stem the rising tide of indignation against the serious danger to British shipping through apparently uninterrupted activity of the U-boats.

The public is just now coming to realize what these shipping losses mean to the future of the country. That optimism bordering closely on indifference which characterized the early stages of the German campaign against British shipping has been replaced by a serious pessimism. With the figures stating the British public in the face there is no longer the same high-spirited enthusiasm and military statements that there was a month or two ago. England is closer to the truth about her real condition today than she has been since the opening of the war.

DISCUSS FOOD PROBLEMS.

The press today devotes considerable space and prominence to the shipping losses and to a discussion of the navy and food problems. There are schemes and suggestions galore for fighting the submarine menace. One ingenious plan has it that the current crop of U-boat activity would be for the United States to build 10,000 waterplanes to patrol all the waters and attack the sub-

BRITISH TROOPS START FOURTH GREAT THRUST.

Attack Extends Over Entire Front of Arras Sector. Tornado of Artillery Fire Precedes Creeping Barrage. Vague Reports Indicate Considerable Progress in Several Directions with One Repulse Near Oppy.

[BY ATLANTIC CABLE AND A. P.]

LONDON, May 3.—The British began another attack this morning and have made progress, the War Office announces, as follows:

"Heavy fighting is taking place all along the front from the Hindenburg line north of the Senne River to the Acheville-Vimy road. Our troops have already captured a number of strong positions."

Progress was made in the direction of Fresnoy and Chertoy and also towards Bullecourt. Reuter's correspondent at the British headquarters reports:

The new British attack takes in virtually the entire front on which the battle of Arras was begun on Easter Monday and evidently is a major operation. It is the fourth great attack that the British have made along this line.

The front is about twelve miles long.

ATTACKED BEFORE DAWN.

The British attacked in the dark, set hour preceding dawn this morning, striking at German positions east of Arras. The infantry assault was delayed until half an hour after the half-moon had risen and the night was clear and down. The night was clear and down. The night was clear and down.

The correspondent says the attack was directed to the taking of certain points of considerable importance and to improving the British line. The British desired to gain complete mastery of positions where their artillery could bring to bear effectively to devastate the fresh troops which the Germans continue to throw in.

THE ADVANCE.

There was the usual preliminary tornado of fire from weapons of all calibers and then the equally familiar creeping barrage, working with absolute regularity in order to the men to go forward was snatched forth simultaneously down miles of trenches. Tens of thousands of snatching figures formed into regular waves for the advance.

Then came the inevitable deadly rattle of machine-gun and rifle fire and the crashing and bursting bombs as the infantry reached the parapet of the first enemy trench.

As to the results obtained, the correspondent adds, reports thus far are vague but the British made progress in several directions toward Fresnoy and Chertoy and also toward Bullecourt, which is a point on the Hindenburg line.

German counter-attacks heavily near Gavrelle and Leos. These onslaughts were dealt with successfully.

"TIMES" YOSEMITE VALLEY EXCURSION.

A special Times excursion party is being formed to visit Yosemite Valley. The party will leave Los Angeles on Saturday, May 19, next, returning to Los Angeles Monday, May 21.

The price of ticket, which includes round-trip railroad and stage transportation direct to and from El Capitan Camp, berth on train, all meals en route, hotel accommodations and meals at the camp, is \$50. For further information address The Times Excursion Department, First and Broadway. Telephone, 10391 and Main 3500.

PEER CRITICISES BOMBING REPRISALS.

[BY ATLANTIC CABLE AND A. P.]

LONDON, May 3, 7:25 p.m.—In the House of Lords today the Archbishop of Canterbury raised the question of the recent bombing of Freiburg by French and English aviators in retaliation for outrages against hospitals perpetrated by the German fleet. The Archbishop declared there was a strong feeling throughout the entire country against such reprisals.

Earl Curzon of Kedleston, member of the war council, replying for the government, said it was too early to say whether the reprisals had been successful, but there was evidence that it had a salutary effect.

FRENCH AIRPLANES BOMBARD ENEMY.

DROP EXPLOSIVES ON CAMPS AND FACTORIES.

Fire and Other Damage Follow Expeditions—Several German Machines Brought Down—Artillery in Spirited Action in Several Sectors of the Aisne Front.

[BY ATLANTIC CABLE AND A. P.]

PARIS, May 3.—The night's official communication reads:

"Quite spirited artillery actions have occurred in several sectors of the Aisne front. The Germans violently bombarded Rheims today. In the neighborhood of Bray-en-Laonnois, one of our reconnoitering parties in the course of a raid on the German lines brought back about forty prisoners."

FOLLEN'S ARGUMENT.

Arthur H. Pollen, who has an article in the current Land and Water grivings detailed arguments for making changes in the organization and personnel of the Admiralty—an article which the Admiralty prohibited—said in an interview today:

"At the present rate our ships will be gone by July, 1918. The leaders of the food supply hold out depends on whether we attempt to defend them by organizing the current crop for U-boat activity would be for the United States to build 10,000 waterplanes to patrol all the waters and attack the sub-

MEETS ITS FATE.

The second enemy machine met its fate while helping to defend a large German formation which had been attacked by four British triplanes. The second of the enemy machines was sent down, while all four triplanes returned safely. They reported that the brilliant German machine gunner had been killed. The British brought down one of the "red devils" leaving the remaining three to scout about the air for several days. Yesterday the second of the red machines fell in flames, leaving only two.

On May 3 our pursuit airplanes displayed marked activity. In numerous instances our pilots brought down four German machines; fifteen others were seen falling in a damaged condition.

On the night of April 29-30 one of our Escadrilles bombarded the railway station and factories at Valenciennes. On the morning of May 1 our airplanes dropped 320 kilos of projectiles on the aviation camp at Valenciennes. The following day the same camp was bombarded with 2000 kilos of explosives. A great fire was observed in the barracks. On the night of May 2 one of our groups bombarded the railway stations at Betheniville, Font-Paverne and Chateaufort. The attacks, accompanied by several explosions, breaking out.

COLONIAL CHANGES TO AWAIT PEACE.

IMPERIAL WAR CONFERENCE LETS FUTURE REST.

[BY ATLANTIC CABLE AND A. P.]

LONDON, May 3.—The imperial war conference, which has been in session for several weeks and has been attended by eminent representatives from all parts of the empire except Australia, is nearing the end of its labors after considering questions covering a wide field and adopting resolutions on matters of far-reaching importance.

The Secretary of State for the Colonies, Walter Hume Long, in a statement today, says that some matters dealt with are of a confidential character and it probably will not be possible to publish the resolutions or debates until the end of the war. However, he quotes a number of important resolutions, among them one approving the imperial preference in the matter of trade.

Another resolution expresses the opinion that readjustment of the constitutional relations of the component parts of the empire is too important a subject to be dealt with during the war and should be taken up in an imperial conference as soon as possible after the cessation of hostilities.

The conference places itself on record as holding that any readjustment of the constitutional relations of the component parts of the empire is too important a subject to be dealt with during the war and should be taken up in an imperial conference as soon as possible after the cessation of hostilities.

HUNDREDS DROWNED ABOARD A TRANSPORT.

[BY ATLANTIC CABLE AND A. P.]

LONDON, May 3.—The British transport Arcadian was sunk by a submarine April 15. It is believed 375 men were drowned.

"The Arcadian was torpedoed in the Eastern Mediterranean. She went down five minutes afterwar."

"Nineteen officers, ten men with naval ratings, thirty-four members of the crew and two civilians are among the missing, whom it is presumed were drowned."

COAL PRICES ADVANCED.

[BY A. P. DAY WIRE.]

DENVER (Colo.) May 3.—Coal today costs the consumer 50 cents a ton more than it did yesterday, at prices fixed by many retailers. E. H. Coffey, manager of a local coal company which is a member of the Denver Coal Merchants' Association, announced tonight that the association would raise the price of production due, in part, to increase in wages to miners and in part to increased "overhead" costs.

SWEDEN PROHIBITS EXPORT OF FOODS.

[BY ATLANTIC CABLE AND A. P.]

STOCKHOLM (via London) May 3, 4:35 p.m.—A prohibition against exports which went into effect today covers nearly all articles of foodstuffs, the export of which previously had been permitted. The most important prohibitions are the covering pork.

British Attack.

(Continued from First Page.)

The English will soon be taking the very caps off our heads."

The daring of the British aviators in flying so low over the enemy country is one of the striking phases of the latter-day air tactics. During a recent night raid, with only the stars to guide them, the British swooped down upon their dimly outlined targets and dropped bombs, barely escaping themselves from the upward blast of the resulting explosion.

During this raid the Germans defending their supply depots brought into play poison gas. The British, whereupon a Britisher promptly flew at it like a giant moth, loosed a light-weight bomb directly over it and the lamp went out, to burn no more.

DISPLAY OF FIREWORKS.

The British raids on dark nights bring out a great display of enemy fireworks. In addition to the fire and the bursting shrapnel shells, various colored rockets are sent hurtling into the air. The British, just now as the May moon is approaching its fullness and lights the nocturnal hours, the raiders go "over the top" in great numbers, blow up enemy ammunition stores, rout sleeping enemy soldiers out of their trenches, and bring transport columns into endless confusion and scatter general demoralization from the skies for hours at a time.

Some of the best fighting the British have had recently has been with the second of the red machines. At first there were four of these in the flight and all were handled with consummate skill, indicating that some of the best German pilots had been gathered into this particular fighting unit. At the first encounter the British brought down one of the "red devils," leaving the remaining three to scout about the air for several days. Yesterday the second of the red machines fell in flames, leaving only two.

On May 3 our pursuit airplanes displayed marked activity. In numerous instances our pilots brought down four German machines; fifteen others were seen falling in a damaged condition.

VILLISTAS GATHER NEAR GUADALUPE.

FORCES CONCENTRATING AND FIGHT IS EXPECTED.

Salazar and Prieto Said to be Commanding the New Campaign South of Juarez—Reports Received Tell of Killing of American by Rebels.

[BY A. P. NIGHT WIRE.]

EL PASO (Tex.) May 3.—Villistas are being concentrated in the vicinity of Guadalupe, thirty-two miles south of El Paso, and an effort may be made to take and hold that point. The Mexican government has announced that it expects a fight tonight after messages had been received from the border opposite Guadalupe.

AMERICAN HANGED BY MEXICAN REBELS.

[BY DIRECT WIRE—EXCLUSIVE DISPATCH.]

EL PASO (Tex.) May 3.—An American oil operator named Davis, whose first name is unknown, was put to death by Mexican rebels near the town of Llanos and Tampico in the State of Tamaulipas, Mexico, according to advice received today by government agents. Davis was engaged in the oil business in the Tampico district. He was captured and shot by a rebel band commanded by Carrero Torres, who dominates the outlying districts, the advice added.

After the execution Torres issued a proclamation that he would protect all Mexicans who submitted to him. The date of the killing was not stated nor whether he had relatives in the United States.

NORTHLIFFE HOME SHELLED BY GERMANS.

[BY A. P. NIGHT WIRE.]

NEW YORK, May 3.—Lord Northcliffe's country home on the Isle of Thanet was damaged by shell fire when German destroyers made a raid on Margate and Broadstairs on February 26. Lord Northcliffe was in his home during the attack, which took place about 11 o'clock in the evening. Thus, the center of his garden was killed and his cottage was practically destroyed.

These facts were made known by steamship passengers arriving from abroad today.

VACUUM SURVIVORS SUFFER SEVERELY.

[BY ATLANTIC CABLE AND A. P.]

LONDON, May 3.—Capt. S. S. Harris and eight other survivors of the American tank ship Vacuum, sunk by a German submarine, arrived today at London, suffering severely from exhaustion and exposure. Lieut. Thomas, U.S.N., who was in command of the gun Vacuum of the United States, was captured on Sunday morning in the captain's boat. His body was buried at sea.

The captain's boat was overturned three times and the men had a terrible battle for life. The survivors were unable to travel before Saturday.

KAISER INSISTS ON OWN TERMS.

Published Appeal Says Victory is Essential to Pact.

Need for Colonies and Raw Material is Emphasized.

Want an Indemnity in Land and in Cash.

[BY ATLANTIC CABLE AND A. P.]

AMSTERDAM (via London) May 3, 4:05 p.m.—German newspapers published an appeal for "a German peace," which is signed by a large number of usurers and associations representing German agricultural, industrial and economic interests.

The appeal says:

"Demands for peace without a war indemnity and territorial extension must be regarded by all patriots as depressing, paralyzing and shameful. Our task is to protect our frontier better, strengthen our influence at sea and by extending the Allied rule of raw materials, promote our industry and insure our equipment for defense of the fatherland."

"We need ground for colonization in order to strengthen our people and increase our production of foodstuffs. Only such peace, which is obtainable only by a German victory, can bring the German people the economic alleviation which it needs immediately after the conclusion of peace."

TURKEY WILL NOT QUIT.

[BY ATLANTIC CABLE AND A. P.]

LONDON, May 3, 3:40 p.m.—The Turkish government, in an interview in the Fremdenblatt expressed complete satisfaction with the visit to the Central Powers and their prospects for peace, according to a Vienna telegram today.

The Sultan's last words, according to the correspondent, before leaving Constantinople were: "Tell the other powers that I stand by them loyally until death."

BACKWARD SPRING CAUSED BY WAR.

WEATHER MAN BLAMES RAIN FOR CONDITIONS.

Says Detonations of Big Guns and Great Bombs Deflect Air Currents and Jar Progression—Absence of Information Also Causes Trouble.

[BY DIRECT WIRE—EXCLUSIVE DISPATCH.]

CHICAGO BUREAU OF THE TIMES, May 3.—It is explained at last that the backward spring is due to the war in Europe.

So declared H. J. Cox, government weather forecaster in Chicago, in an address today before the Chicago Engineers' Club on the "War and the Weather."

The cold, damp chill, penetrating air that has settled over the whole of the northern United States is due to the detonations of the big guns of the French, British and German, combined with the cracking of the lighter weapons of the airplanes and dirigibles in their battles above the clouds. The explosions of the aerial guns and the booming of the heavier pieces on the ground send the upper air currents swirling down to the earth, he said. And, coming down, they are wafted across the continent by the wind, with the hopes of winter-wear American.

Ordinarily this cool upper air would come southward gradually, but the war has so altered all the world in battle, summer will be delayed until the sun arrives strong enough to heat the higher strata.

And there are other ways, Mr. Cox said, in which the weather is being affected. The war in New Germany is cut off from all the world. It does not receive the weathering of the winds, nor the air from the sea, nor the air from the land. In consequence crops are planted, plants are sown, and the weather is so altered through the seas, all in utter darkness as to what storm or stress they may encounter.

BRITISH TANKER SUNK IN MEDITERRANEAN.

[BY A. P. DAY WIRE.]

PHILADELPHIA, May 3.—The British tanker ship British Sun, owned by the Sun Oil Company of this city and leased to Great Britain, was sunk by a German submarine in the Mediterranean, according to a cablegram received today by the company. The crew was saved.

The British Sun was built in 1909 and was 1800 tons measurement. She is said to have been one of the finest of her class, and was valued at \$12,000. Last summer Great Britain took her for war purposes.

Capt. Carey, who commanded the ship when it was sunk, and his crew, is believed by Mr. Pew to have been in command when she was sunk. Many of the crew also remained with the ship.

TWO OF CREW OF THE ROCKINGHAM KILLED.

ZAIMIS WILL FORM NEW GREEK CABINET.

[BY ATLANTIC CABLE AND A. P.]

LONDON, May 3, 4:45 p.m.—Alexander Zaimis, a former Premier of Greece, recently was reported to have promised the British Minister in Athens to form a Ministry acceptable to the British and French governments on condition that the blockade of Greece should be lifted. He is said to be loyal to the King.

ment taken proper steps subsequently, it was said, to prevent their repetition in other quarters.

The Minnesota delegation protested against the failure of the Federal government to dispatch troops in answer to the request of the Governor, and declared that millions of bushels of grain stored in Minnesota elevators were now without a doctory military protection. Two large granaries, they declared, have already been destroyed by incendiaries. In view of the urgent need of wheat to meet the world shortage, they declared, it was little short of criminal to permit the Minnesota grain elevators to go unprotected.

RAY STATE ACTS.

During the conference it was pointed out that the State of Massachusetts had appropriated \$1,000,000 and other States had to make similar emergency appropriations, to make a conference of the Governor with State Governors and representatives of State defense councils.

Members of the reserve would be available for any service they could perform for the government.

The plans were presented by George Wharton Pepper, a representative of the Pennsylvania State Defense Council and chairman of a National Committee of Patriotic and Defense Societies.

The reserve would be headed by a board of nine nationally known men, which would operate through a National Council of Patriotic and Defense Societies. Under the National Committee there would be State and district committees, and the reserve would be organized into quarters. Committee would sit to carry on administrative work.

Membership of the board of nine has been tentatively accepted, it was stated, by George Wharton Pepper, Maj. Gen. George W. Goethals and Henry L. Stimson, former Secretary of War.

The purpose of the organization would be to furnish any military or naval service which could be performed by the reserve. The reserve would be organized into quarters. Committee would sit to carry on administrative work.

"Encourage me, everybody, back away from it. On the other hand the habit of saving money, while it will not lighten the burden, the obligation. If you are sure that you are becoming right, begin to move."—THEODORE ROOSEVELT.

PATRIOTISM and self-interest alike demand that Americans look far into the future and provide, in the shape of dollars, the sinews of war that the country will need in vast amounts.

To finance the coming Naval and Army operations is not a matter that concerns a small minority of our citizens, but the responsibility rests upon the shoulders of every American.

If each of the forty million workers will save a dime a day the aggregate accumulations will reach \$1,465,750,976 in one year—more than sufficient to pay the expenses of the proposed Universal Service measure.

CLINCHES CASE AGAINST TRACY

District Attorney Scores Methods of the I.W.W. Snohomish County Official Accused by Defense.

Fate of Alleged Slayer May be Decided Today.

SEATTLE, May 3.—The case of Thomas H. Tracy, charged with the murder of Jefferson Beards, a Snohomish county deputy sheriff, on November 5, 1916, will, in all probability, go to the jury tomorrow morning. Today Attorney Fred Moore finished the arguments in the defense and H. D. Cooley, for the state, made his closing argument. Tracy was a member of the "free speech" party of labor trial workers of the world who were active in the trial of the Beards case. He was charged with the murder of Beards, who was killed during a battle between the mill owners and the county party and a sheriff's posse. Declaring that the one great issue in the case was the question "Who was the aggressor?" Moore declared that the whole case was a part of the Snohomish county officials, including the sheriff, in an attempt to suppress the labor movement. He reiterated his contention that the mill owners and the county party were the aggressors, and that the labor movement was the victim. He declared that the labor movement was the only effective means to end the conflict, and that the labor movement was the only means to end the conflict. He declared that the labor movement was the only means to end the conflict, and that the labor movement was the only means to end the conflict.

RUSSIA WILL STAY IN WAR.

Provisional Government Sends Assurance to Allies.

Warns Troops Against Overtures of Enemy.

Attack the Germans on the Rumanian Front.

ATLANTIC CABLE AND A. P. PETROGRAD, May 3 (via London).—The Russian provisional government has sent to the Allies a note assuring them that the change in government in Russia cannot afford any slackening of the Russian in the common struggle of all the Entente Allies.

The note, which is dated May 1, and signed by Foreign Secretary G. G. Shchegolev, says in part: "I am convinced of the victory of the present war and of the agreement with our allies, the provisional government is confident that the problems which were created by this war will be solved by the creation of a firm basis of a lasting peace and that, inspired by the Allied sentiments, the Allied governments will find means of effecting the necessary to prevent any further sanguinary war in the future."

WARNS AGAINST LAXITY.

PETROGRAD (via London) May 3.—Gen. Alekseev, commander-in-chief of the Russian army, has arrived on the Riga front. An order of the day issued by him warns the soldiers against having relations with the enemy. It says: "The enemy is seeking to establish such relations and taking advantage of this to gain information about the Russian defensive organization."

MUTT AND JEFF—Jeff Didn't Want to be Dead Before He Started.

By BUD FISHER.

BLUNDER CHARGED BY LA FOLLETTE.

OUR WAR POLICY ALL WRONG, SCORES ADMINISTRATION.

Wisconsin Senator in Magazine Which Bears His Name Insists Germany in Sinking Our Ships was Only Doing the Same Thing England has Done.

BY DIRECT WIRE—EXCLUSIVE DISPATCH. MADISON (Wis.) May 3.—United States Senator La Follette, in a two-page signed editorial in the magazine which bears his name, and a second editorial on another page, declares:

"In sinking the ships in the prescribed area without warning, Germany is doing only that which England is doing in her proscribed area with our consent."

Senator La Follette says there are two alternatives. One is to demand that both nations respect our neutral rights, and enter the war to enforce our rights. The alternative, he declares, is to withdraw our commerce from both.

In the shorter editorial he declares that this is no more a war of democracy than that which is forced on the German people by the German autocracy.

He says in part: "We acquiesced in England's action without protest. It is proposed that we go to war with Germany for identical the same action upon her part. The present administration made a fatal mistake. The administration has acted upon the policy that it could enforce the very letter of the law against one belligerent and relax them as to the other. That no nation can do so without losing its character of a neutral nation and without losing the rights that go with strict and absolute neutrality. Any failure on our part to enforce the rights of the nation equally against both is a gross act of un-neutrality."

"The failure to treat the belligerent nations of Europe alike, the failure to reject the unlawful war of Germany and Great Britain is wholly accountable for our present dilemma."

"We should not seek to hide our blunder behind the smoke of battle, to inflame the minds of our people by half truths into the frenzy of war, in order that they may never appreciate the real cause of it until it is too late. I don't believe that our national honor is served by such a course. The right way is the honorable way. One alternative is to admit our initial blunder to enforce our rights against Great Britain as we have enforced our rights against Germany, demand that both these nations shall respect our neutral rights upon the high seas to the letter and give notice that we will enforce those rights from this time forth against both belligerents and then live up to that notice. If we do not and are obliged to enter the war, we are obliged to enter the war against Germany. The record which I have presented is but a hasty sketch, but it proves the truth of my words."

"The other alternative is to withdraw our commerce from both. The suggestion that food supplies should be withheld from both sides impartially would compel belligerents to observe the principles of freedom of the seas for neutral commerce."

BELGIAN MINISTER DENIES PEACE TRIP.

LONDON, May 3. (via London).—Emile Vandervelde, Belgian Minister of Munitions and president of the International Socialist Bureau, denies the report that he will be a participant in the socialist conference at Stockholm on May 15, says a British official statement today.

The Stockholm conference, the statement declares, was summoned by Dutch delegates who had been temporarily added to the Executive Committee of the bureau. Neither the president nor the two other permanent members had been consulted, it is asserted.

GERMAN PLOTTERS FOMENTED STRIKES.

PROOF OF GREAT CONSPIRACY AT RINTELEN TRIAL.

Enemy Agents Shown to Have Worked in Many Cities to Cripple Munitions Makers by Causing Labor Disturbances—Union Policies Come into the Case.

NEW YORK, May 3.—Wide-spread ramifications of the German plot to cripple shipments of munitions from this country to the Entente Allies by fomenting strikes were disclosed late today at the trial here of Capt. Frans Rintelen of the German navy and seven others charged with conspiracy.

Registers and ledgers from hotels in this city, Washington, Chicago, Indianapolis and Atlantic City containing signatures and accounts of the alleged plotters were introduced in evidence to show the extent of the propaganda.

T. B. Horner of the Hotel Sherman, Chicago, testified that on July 21, 1915, David Lamar, one of the defendants, registered there, signing the name of "E. Rusky."

L. C. Horton, a handwriting expert, testified that the handwriting of the "E. Rusky" signature was the same writing as that in several letters put in evidence written by Lamar. Other signatures in the hotel book were acknowledged as genuine by the writer.

Preceding this testimony the cross-examination was completed of Sam Gompers, president of the American Federation of Labor, who asserted that he warned former Representative Frank Buchanan, one of the defendants, against some of his associates on Labor's National Peace Council, said to have been formed and financed by Rintelen's money to carry out the purposes of the alleged conspiracy. Counsel for the defense asked Mr. Gompers questions aimed to draw admissions from him that he was actuated in testifying against Buchanan by a fear that Buchanan might be put forward to succeed him as president of the American Federation of Labor. Mr. Gompers indignantly denied this.

Mr. Gompers also denied imputations that he had ill feeling against Herman Schulteis and Henry B. Martin, two other defendants.

Mr. Gompers said he and the federation of which he is the head were in favor of universal peace and international disarmament, but that they were opposed to the interference with traffic in munitions as proposed by Labor's National Peace Council.

Clear your complexion completely with Resinol Soap. If you find yourself "left out" because of a poor skin, and want a clear, fresh complexion, use Resinol Soap at least once a day. Wash thoroughly with a warm, creamy lather of it, then rinse the face with plenty of cold water. It does not obstruct the many days of such regular care with Resinol Soap to show an improvement. In severe cases, a little Resinol Ointment should be used at first. All drug stores sell Resinol Soap and Ointment.

Says Fat People Now Rejoice. Testimony Proves Arbolone Safe, Sure Reducer. Enjoys Wide Sale Amongst Educated Wealthy Set.

The physician who originated the Anti-Fat treatment known to physicians and druggists as "Arbolone tablets" is being praised and thanked by scores of women in the class known as "society devotees."

A literary woman in Los Angeles, being so highly elated over her success in reducing, has written a clever little poem, which recites the facts and expresses deep gratitude as well. To safely and surely reduce from 25 to 40 pounds is easily accomplished when Arbolone tablets are used regularly. They are not drastic or dangerous, used as directed, but simply and surely dissolve the fatty elements and eliminate them from the system. Also they remove the craving for such foods as are not desirable for fat folks to use. Herein, Arbolone is superior to all other safe fat medicines as it automatically overcomes the abnormal, perverted appetite for starchy foods, etc. Sold by all druggists in sealed tubes with full directions.

One Kind of Service

When you read June 28, 1914, of the assassination of Archduke Francis Ferdinand, who could have made you believe that the consequences of this act would affect you—vitality? Likewise, when you read today of hunger and starvation and impending famine in other lands—you feel as you did then that your country and you are secure.

The world is today facing a food scarcity unprecedented. Every provision ship that is sunk from now on, every crop that fails will cut down the small aggregate of food supply on hand. And it will cut down the fullness of your own larder by sending the cost of food-stuffs soaring.

By raising even your own table provisions at a time like this you are not only protecting and serving your family and yourself, but you are rendering a service to the nation and the world.

You are contributing by just so much to the total food supply. You are allowing some family to eat that might go hungry.

To aid the general situation, this company will do everything in its power to enable all those desiring to plant and care for gardens to do so with the least possible inconvenience and at the smallest possible cost. We have a number of choice garden-site locations in Walnut Park, half a block from a 5-cent yellow car line, and only a half hour from downtown—all plowed and harrowed and composed of the finest garden soil with the best water in Southern California. These pieces are priced at \$700 to \$900—and can be bought during the present and coming week on practically your own terms—a little down, a little every month. If you are unable to care for your garden, we will provide this service for a nominal charge. Why not plant a garden and let your boy put in some of his spare hours on it during vacation time? Put him to the test. Let him show you what he can do.

These sites are ideal home locations—in the heart of a well-developed district, one of the most beautiful and highly improved on the Pacific Coast, bar none. ENGLISH SECURITIES REFLECT OPTIMISM.

(A. P. FOREIGN CORRESPONDENCE.) LONDON, April 30.—The monthly valuation of securities by the Bankers' Magazine shows that in March there was, for the first time since the war began, an appreciation in the value of the leading Stock Exchange securities. The rise in value totaled \$17,000,000, or 0.8 per cent. In 1917 representative securities. The better tone during March is ascribed to the favorable progress on the western front, to the success of the war loan and to the favorable progress of pro-Entente sympathies in the United States.

CLIMAX IN TESTIMONY.

The climax of Mrs. Vawter's testimony came late today when she related happenings immediately prior to and following the shooting. After Heth had been shot, she testified, Vawter said:

"I have avenged the family honor and I will go to trial with my lips sealed to protect your honor."

"You will not," Mrs. Vawter said she told her husband. "I will atone for my past sins by baring myself to save you."

Mrs. Vawter told a dramatic story of her home life at Blacksburg. For a year, she asserted, Heth had been "dogging her tracks," always playing her with liquor. Once, she said, her husband, seeing her emerging from Heth's room, denouncing him as a guest, and a few minutes later Heth brought Vawter into his bedroom, apparently unconscious.

The witness told of another occasion when Vawter saw Heth trying to embrace her. Vawter again denounced Heth and later Heth again brought Vawter into his room and put him to bed. On the following morning, she said, she found finger prints on her husband's throat.

Woman Admits Infatuation with Stockton Heth.

(BY A. P. NIGHT WIRE.) CHRISTIANBURG (Va.) May 3.—Mrs. Charles E. Vawter, testifying today at the trial of her husband, the Virginia Polytechnic professor charged with murdering Stockton Heth, Jr., admitted previous intimacies with Heth, but declared that a few minutes before Heth received his death wounds he had attacked her. Mrs. Vawter, baring her life in defense of her husband, said she was infatuated with Heth, but always had repelled his advances when not under the influence of liquor.

Following the introduction yesterday of letters written to Heth by Vawter, in which the latter revealed that he knew of the younger man's relations with his wife and at the same time asked Heth to pay a whisky bill, the defense began introducing testimony to show Vawter insane at the time. Several physicians testified today that Vawter was unbalanced when he wrote Heth about affairs in the Vawter household.

NIGHT OF TRAGEDY.

On the night of the tragedy, Mrs. Vawter said, Heth was in the Vawter home when she and her husband returned. After drinking all night, she was awakened when she heard her little child coughing. She went to the hallway to get medicine

and heard Heth call her. "Come in," she quoted Heth as saying. "I want to talk to you."

"I will not," she said she answered. Heth then caught her arm, she said, and she resisted.

Upon hearing Prof. Vawter moving around, she said, she ran across the hall and went into the room of her children. Her husband went downstairs and got a pistol, she said, and when she asked him to give it to her so she might kill herself he refused. A struggle between Vawter and Heth followed and in the course of it came the pistol shots that ended Heth's life.

Asked if her husband condoned improper acts with Heth, she replied that he always upbraided and condemned her and that she always had concealed the facts from him.

FROM VAWTER'S LETTER.

"Now you can love her with less fear," said one of Vawter's letters. "You are not worrying me, for it is her happiness, not yours, although I like you very much. You are simply a lucky fellow."

"I know what happened Sunday afternoon," the letter continued. "You are not worrying me, for it is her happiness, not yours, although I like you very much. You are simply a lucky fellow."

The writer also said that he must give up drinking, as when he was under its influence he could not control himself. However, he said that he had controlled himself by a supreme effort on the Sunday afternoon when he saw Heth and his wife together at his home.

VETERANS VOLUNTEER.

Aged Telegraphers Who Served in Civil War Would Enlist Again.

(A. P. FOREIGN CORRESPONDENCE.) NEW YORK, May 1.—Surviving members of the United States Military Telegraph Corps of the Civil War, although all more than 70 years of age, have volunteered their services to the United States government in the present war.

Through the president of the society of the corps, William Bender Wilson of Holmsburg, Pa., and the secretary, David Homer Bates of this city, the suggestion has been made to Newton D. Baker, Secretary of War, that the survivors of the corps and their sons and grandsons be enrolled for government service in a special reserve corps to be designated "the Civil War Military Telegraph Corps" under the command of Mr. Wilson and Mr. Bates.

In offering the services of these Civil War telegraphers who were once in the United States Army, and their descendants, the officers of the Society of the United States Military Telegraph Corps proposed that they should serve without pay under the supervision of the War Department. Together with this offer, a list of the names of those whose services were offered, numbering about 500, was forwarded to the Secretary of War, with the suggestion that each of the volunteers serve his home locality by operation with other patriotic organizations.

DISCOUNT LOSS BY SUBMARINES.

Curson Declares Allowance for Wastage is Made.

U-boats Lying in Lanes, Says a British Captain.

Remarkable Experiences are Told by Marines.

(BY ATLANTIC CABLE AND A. P.) LONDON, May 3.—Earl Curson, member of the war Council, speaking of the submarine situation today, said he recognized the submarine menace to be formidable, but stated that in its calculations the Cabinet had made allowance for a wastage of shipping greater than that which had taken place. He did not himself think that in practice that it would demoralize shipping so greatly as to affect the ultimate issue of the war.

REMARKABLE TALES.

American citizens landed during the last few days from vessels sunk by German submarines tell remarkable tales of the strenuous exploits of the U-boats. In one case three undersea boats appeared simultaneously alongside the ship, one being a submarine cruiser 300 feet long and the others old-fashioned submarines with a length of about 120 feet.

In another case a German submarine wore an elaborate disguise of a fishing boat. This submarine carried a gun which had a range of nearly five miles.

In at least two cases the crews of vessels sunk by submarines were rescued from boats by a passing ship only to suffer a repetition of the disaster when the ship on which they had taken refuge fell prey to an underwater host.

LYING IN NETS.

The captain of a sailing ship, sunk ten days ago, said:

"Submarines are lying along the sea well under the water most of the time, coming up now and then for periscopic observations, or for hearing the approach of merchant craft, which often can be identified readily by the sound of the engines. By thus conserving fuel the submarines are able to remain away from their base a long time and also they find means of renewing their stores from ships which they sink."

REVEALS MURDER PLOT.

Woman Tells of Alleged Plan Preceding Slaying.

ST. PAUL (Minn.) May 3.—Mrs. Frances E. Brown, hitherto known as "Mme. D." in a statement given today by the police, corroborated the story told by her former husband, Al Brown, and S. O. Ferdig, of Montana, of a plot for the murder of Mrs. Alice McQuillan Dunn, which preceded the actual killing of Mrs. Dunn by nearly two years.

Ferdig, she said, told her of the plot first and later Brown, at that time her husband, admitted it.

Mrs. Brown said she was too terrified to reveal the alleged plot, though now she regretted not having done so. She was divorced from Brown in Roundup, Mont., in October, 1915, she said.

The police were confident tonight that the murderer of Mrs. Dunn, killed at her home here a week ago today, would soon be arrested. Brown and Ferdig, the police say, while held under close surveillance, technically are not under arrest.

PERFECT WOMAN CLEARLY DEFINED.

ENGLISH TEACHERS SAY SHE IS FORTY AND MARRIED.

Joint Opinion of Feminine Instructors Places Their Ideal in a Happy Home, and Gives Her Physical Prowess with Mental Agility.

(A. P. FOREIGN CORRESPONDENCE.) LIVERPOOL, April 30.—"The perfect woman" has just been defined by a conference here of teachers from girls' schools throughout England. Here is the result of their united effort.

"The perfect woman is 40, is married and is the mother of five children. She is in happy circumstances, living in a beautiful part of the country a few miles from a big town. She is the center of a good home, in which there is a high standard of cleanliness and comfort, and where good taste is everywhere visible, in furniture, carpets, curtains, wall paper, ornaments and clothes."

"The ideal woman is sensible and businesslike, and her home is a place of peace. She is patriotic and interested in politics, and does not suffer from the causes of suffering among the poor. She is a delightful companion, and has a gift for friendship. She is a religious woman, and tries to fulfill her duty toward God and toward other people."

"She takes walks, rides bicycles, climbs, swims, dances, skates, rows and plays games. She can ride and drive a motor car. She is proficient in many branches of practical learning. She can do anything and everything about the house. She has some knowledge of the law, knows how to invest money, can use a typewriter. She is a great reader; every day she reads some serious book as well as a newspaper and a novel. She is fond of gardening and has learned several languages besides her own and reads foreign books. She is fond of bookbinding, embroidery."

CHORUS SINGERS WIN SALARY STRIKE.

(A. P. FOREIGN CORRESPONDENCE.) PETROGRAD, April 30.—One of the numerous petty strikes which preceded the revolution was a strike of the chorus singers of the Petrograd opera, who, like the chorus of the opera in Paris and Vienna and other European capitals, are employees of the State. They struck for more pay. Some of them were receiving only 1250 roubles a year, which they insisted was less than half of a living wage under present circumstances. Promises of an increase in salaries had been repeatedly made and not kept, and the chorus decided on drastic measures. The opera house was full, and the curtain rose on a native opera which begins with a stirring chorus. The chorus was on the stage but not a single note did a single member of it sing. So it went throughout the evening, except for an occasional diversion when the chorus suddenly took it into their heads to sing planissimo a part which ought to have been sung forte, or vice versa. The ending was happy—all chorus salaries were raised 50 per cent. the next day.

SUZ, April 15.—The passing
of the "holy carpet" through
the city of Suez, a spectacular
event, broke the monotony of war
times, a considerable procession
of pilgrims to Mohammed's tomb
in Mecca.The procession in Suez
from the freight station, where
the carpet had previously arrived,
passed through the city, the
pilgrims carrying banners and
playing drums and tambourines.
Behind the foot of the pilgrims
a body of Egyptian cavalry
drawn swords, mounted upon
dromedaries, followed, and
a mounted battery of Egyptian
artillery, an Egyptian military
band, and a band of Egyptian
infantry, followed in an effort
to reproduce the scene of the
pilgrimage to Mecca.Then came the "holy carpet,"
a richly embroidered rug, borne
on the back of a camel, and
followed by a crowd of pilgrims,
which rode a native priest,
carrying a small shrine, and
a group of English military
police, bringing up the rear
of the procession.As the carpet, surrounded by
guard of Egyptian infantry,
passed through the city, the
streets saluted while their
people, who were at the win-

BUS HAS MONOPOLY.[LOCAL CORRESPONDENT.]
SAN LUIS OBISPO, May 3.—In
San Luis Obispo county the jitney
bus is supreme. This is due to the
fact that there are no street cars,
and buses go where they like and
charge what they like. Traveling
men and tourists say the rates are
highest here of any place in the
state. The drivers, however, have
an assigned advance of 25 per
cent, and another of 10 per cent.
The jitney drivers declare the
rate makes it essential that they
raise their tariffs.TWO PRIVATES PUT

VENICE, May 3.—Mrs. Daisy
Hull died this morning of pellagra.
She was 37 years old, the wife of J.
E. Hull, a gardener of No. 124 Cal-
ifornia avenue, and had suffered
from the disease more than two
years. She came here from Kan-
sas.Attention was first drawn to the
strange disease, which is said by
physicians to be nearly always fatal,
when ex-City Trustee Fred K. Mc-
Carthy was stricken with it on
April 12, 1916, and was cured by
a new method of treatment by Dr.
J. E. and Mrs. McCarthy. The an-
nouncement that he had been
cured caused nation-wide interest.
One peculiar incident of the case
was that while Mr. McCarthy was
bald for many years prior to the
time he was stricken, when he left
the hospital, pronounced baldness
began to grow on his head and
later came out in abundance. He
is now in Oregon visiting relatives.
Mrs. Hull leaves a widower and
three small children. Funeral ser-
vices will be held tomorrow after-
noon at 2 o'clock at the Williamson
mortuary chapel, Santa Monica.
Burial will be at Hollywood cem-
etery.MOTORCYCLIST HURT,

speeding along Whittier avenue
through Montebello on a motorcycle
this morning on his way to Whittier
from Los Angeles, Victor Pickering
ran into a wagon being trailed by
an auto driven by L. A. Hille of
Whittier as the latter turned into
the avenue from Cedar, a cross-street.
Pickering was thrown violently
against the wagon and was picked
up unconscious and taken to the
Montebello hospital, where he lies
in a critical condition. His jaw was
broken in two places and he suffered
concussion of the brain. His recov-
ery is doubtful.His home is in Whittier, where he

William Jennings Bryan spoke be-
fore thousands of people here today
on the Redpath Chautauqua on
"Fundamentals of Government."
Views of Foodstuffs and of Man's
Relation to His God, to Society and
to His Government.The introduction dealt with food
production and conservation based
on material furnished by Mr. Har-
rington, Secretary of Agriculture.
The main part of his talk was of the
three relationships which every man
must enter, above mentioned.
He leaves for Kansas the last of
this month and only speaks on the
Chautauqua circuit for a month.
He arrived today from El Centro
and will invade Northern Califor-
nia before going East.Bryan spoke freely of his political
career, stating that he had entered
Congress on a Democratic landslide
and four years later he "slid on the
reverse curve," stating, however,
that he knew more about the House
in 1894 when he ran for Senate
than four years before, when he ran
for Congress.He intends to devote twenty years
more to political work, and lauded
the amendment which provides for
direct election of Senators and of
the franchise for women in Califor-
nia. He used the last part of his
lecture in defining God, and the
wonders of the universe.According to the Chautauqua peo-
ple Bryan receives \$500 a lecture.
Although showing signs of increas-
ing age, he still maintains his re-
markable voice, which could be
heard in every part of the tent.The Chautauqua lecturer spoke
before an audience of more than

LONG BEACH, May 3.—Declaring
that the United States govern-
ment is rapidly arriving at a solu-
tion of the high cost of living prob-
lem by the preparation of a bill pre-
venting manipulation and providing
for orderly and economical distribu-
tion, William Jennings Bryan, former
Secretary of State, urged his
thousands of hearers in this city to-
night to produce and conserve food-
stuffs.The Chautauqua lecturer spoke
before an audience of more than
4500 people in the Municipal Audi-
torium under the auspices of the
Long Beach Merchants and Manu-
facturers' Association.Mr. Bryan discussed legislation
now in a state of preparation that
will tend toward dealing adequatelywith the problems of food produc-
tion, distribution and conservation.
"All the government power," he
said, "to have the power to pro-
tect the farmer against prices of
foodstuffs being forced to an unduly
low point, and to protect the con-
sumer against prices being forced
high by artificial means, such as the
forming of 'corners' in any products."
PLANT TO MAXIMUM."Add to the wealth of the nation
by adding to the products of the
soil," he continued. "Plant all
available and tillable acreage to the
maximum extent. Now is the time
for the housewife to practice econ-
omy, and put an end to the waste-
fulness and extravagance for which
this country has been noted in the
past."Mr. Bryan then touched upon
man's relationship to the govern-
ment to society and to God. "Our
form of government," declared the
lecturer, "is the best government on
earth. I do not say that it is per-
fect, but it is the form of govern-
ment toward which all the world is
moving. It is something creditable
to be imitated as we have in China,
for instance. In that remarkable
change of government by the largest
and most conservative country in
the Orient they passed over king-
dom and called their chief officer
President, and in forming a
constitution took for a model the
Constitution of one of the States of
the Union.""With the largest population

neurasthenia

is a condition of nervous exhaustion. Worry, overwork, excess,
an attack of the grip—many things may cause it. Symptoms:
Over-sensitiveness, irritability, headache and a disposition to worry.
The only way to feed undiminished nerves is through the blood.Dr. Williams Pink Pills
for Pale Peopleare recommended in such cases because they are a non-alcoholic
tonic and through the blood build up the weakened nerve cells.
They also correct a tendency to anemia, usual in neurasthenia."Diseases of the Nervous System." TWO FREE BOOKS

Low Cost
of LivingCan it be possible in these
days of soaring prices that
there is such a thing as a low
cost of living?We know for a fact that
many articles we purchase
now are much higher than
formerly.But, hearing so much about
high prices aren't we apt to
imagine some things to be more
advanced than they actually are?Take, for instance, eating in
one of our dining-rooms—"Oh,
but," you say, "you have ad-
vanced prices on some articles."
True, we have, but consider for
a moment what you are receiv-
ing today in the way of food and
service.Think of the delightful sur-
roundings, the carefully pre-
pared variety of good things to
eat, the excellence of service and
the delicious and delicious ab-

Done! The great series of trips between San Francisco and Los Angeles which Ray McNamara has been making in a five-passenger Maxwell touring car was completed yesterday morning. On seven consecutive trips the little car beat the S. P. "Lark!" Never before has any motor car of any size, price or number of cylinders done what the Maxwell did on this great series of runs. Study the schedule below. Read this record of the greatest motor car feat ever accomplished in the history of the automobile industry. One car—the Maxwell. One driver—Ray McNamara. Four passengers carried. Timed and checked by Western Union. See the Sunday papers.

A Sign of Long Life

The life of your car depends
on proper lubrication. Every
working part will do its work
more easily if you use
Dixons' Graphite Automobile
Lubricants.

They totally prevent metal-to-metal
contact and make the
whole car run more smoothly
and last longer.

There is a correct Dixon lubri-
cant for each part of your car.

Ask your dealer for the

SELLING DRIVE MADE ON RAILWAY ISSUES.

Constant Liquidation of High-grade Securities Accompanies Weak Tone of Wall-street Trading—Final Prices Variable Above Lowest, Despite Fresh Liquidation Caused by Advance in Call-money Rates.

(BY A. P. NIGHT WIRE.)

NEW YORK, May 3.—Constant liquidation of high-grade securities accompanied the weak tone of today's stock market. Offerings of new issues were persistent and embodied many issues of the investment class as to convey the impression that they emanated from high financial sources.

Delaware and Hudson must have the greatest loss of any stock in the list, declining 9 1/2 points to 11 1/2. A record was made in the case of the stock of the New Haven, which fell a point to 8 1/2, within a period of the lowest price ever recorded. Trains again acted as a drag, third avenue shares and ad- vanced, making new mini- mum at 21 and 47, respectively, while the Transatlantic declined 1/2, to 25, representing a low record in that case for almost a decade. Ship- pings, oil, leather and securities generally followed in irregular de- cline, the movement of United States bonds which ranged between 11 1/4 and 11 1/2, a net loss of 1/2 point. Final prices were variable, but generally lower than those of yesterday's stock and bond sales.

Sweetheart of Alien Faith in
War of Wealth?

Defendant's Relatives Deny it
is Over Heart Affair.

Because he went outside of his
religious faith for a sweetheart,
Walter S. Kingsbaker alleges in a
complaint filed yesterday against his
sweetheart, a sister and an uncle that
they are attempting to drive him out
of the wholesale produce concern of
Kingsbaker Bros., and ruin him
financially. Kingsbaker Bros. is a
\$100,000 wholesale produce corpora-
tion.

Walter S. Kingsbaker alleges
that because he is a suitor of an
alien woman of good standing
and reputation, not a Jewess, his
relatives made a demand on him
in March to discontinue his cus-
tom of ownership of 200 shares
of stock in the company. He re-
fused and alleges that Benjamin
Kingsbaker, an uncle, announced he
would be compelled to get out of
the corporation if it cost \$500.
Over his protest, he claims, sur-
vived, the other directors of the cor-
poration voted to levy a stock as-
essment of \$10,000 to pay debts. At
that time, Mr. Kingsbaker alleges,
the corporation had on deposit in
several banks many thousands of
dollars.

The complaint asks that the cor-
poration be enjoined from collecting
the assessment; that it be declared
void, and that the secretary be
directed to surrender to him his
stock certificate, which he says
were into the custody of his
uncle, Alfred T. Kingsbaker.

Alfred T. Kingsbaker, the brother,
said last night that his brother's
love for a woman not of his religious
faith has nothing to do with the
stock.

For the Unwary.
DOUBLE CHARGE HIT.

Revised Ordinance Would Prevent
Certain Shows from Exacting
Small Admission Price at
Door and Then Higher
One for "Within."

To prevent Main street "boobs"
from being victimized, Secretary
of the Board of Public Works,
Commissioner, yesterday presented
the bill of a proposed ordinance de-
signed to wipe out certain types of
amusement.

The bill asks that such institu-
tions as the "bull-horn" dancers,
the pseudo Moorish "wiggers" and
the "can-can kickers" be prevented
from charging twice for their per-
formance. It is only these institu-
tions, it is said, which ask a double
price of admission.

It is adopted, it will be impos-
sible to charge a nickel or a
cent for entry and then demand
more "bits" for admission to
more "racy" part of the per-
formance.

The matter was referred to the
Public Welfare Commission.

SIXTEEN DAYS
UNDER A BARN.

A woman giving her name
as Carrie F. Moss was found
yesterday by Forest Ranger
William in the dark recesses
of a barn in the vicinity of the
city. She was taken to the city
hospital, emaciated and evidently
suffering from lack of care
and food.

The unfortunate woman
was found to be much distraught,
and stated to have said she had
been in the barn for sixteen
days, that she might make her
escape from the world without
anybody to hinder her or
make her afraid.

The woman said that she
had been twenty-one days
in the barn, except what she
could pick up in the canyon.
She said that, of the twenty-
one days, she spent sixteen
under a barn in that vicinity.

The woman was taken to
the Home of Truth, No. 802
South Union avenue, for care
and treatment. Inquiry at the
home headquarters elicits the
fact that no woman of that
name is missing.

Her Chance.
GIRL BANDIT WILL
GO TO SANATORIUM.

IS PLACED ON FIVE YEARS
PROBATION.

Will Undergo Treatment to Cor-
rect Tendencies that Have Di-
vided Her from Parental Control
and Made Her One of the Con-
spicuous Criminals of the State.

Estelle Smith, girl bandit, daugh-
ter of a Glendale capitalist, and who
pleaded guilty to a charge of holding
up a Japanese storekeeper, was
placed under five years' proba-
tion yesterday by Superior
Judge Craig. She will be detained
in a private sanatorium to undergo
treatment to correct certain ex-
cessive tendencies that have di-
vided her from parental control and
made her one of the conspicuous crim-
inals of the State.

As Billie Peterson, she was ar-
rested and arraigned, and her true name
was unknown to the police until her
mother came to her defense. Then it
was learned that Billie Peterson was
born to luxury, had the advantage
of the best education, possessed an
entire to good society, and still pre-
ferred to consort with idlers and
thieves. Her mother said she had
been abnormal since gaining ma-
turity, and had become unmanage-
able.

She was arrested while living with
L. E. O'Brien, on a charge of being
a accomplice when he entered a
store and held up Y. Yasuba, a gro-
cer. Both pleaded guilty to the
charge.

Also they admitted having robbed
F. W. Jacques, No. 3110 West Tenth
street, the day after Christmas. The
girl had refused to return to her
parents' home for the Christmas fe-
stival, and the following day had
been forced to banditry to get
enough food for her table.

O'Brien was sentenced to serve
five years in Folsom Prison. At
first, Miss Smith insisted on being
sent to the same prison, but later
consented to listen to the counsel of
friends.

ALMOND-EYED
WOMAN DAZED.

Bribery Charge is 'All Greek'
to this Japanese.

Patrolman Says She Slipped
Currency to Him.

First Case of its Kind Here
in Many Years.

Fuji Akiyama, who cannot speak
English, was arrested and impri-
soned yesterday on a charge of hav-
ing attempted to bribe two police-
men who cannot talk Japanese. To
her belongs the distinction of being
the first woman arrested here in
many years on a bribery complaint.
And as it seems the Nipponese have
no synonym for the word "bribe,"
interpreters were having a frantic
time last night trying to explain the
case to the prisoner.

Those making the complaint are
Patrolmen Childers and Hodges.
Childers, a man in the Oriental
district, Mrs. Akiyama, manages
a bathhouse at No. 111 China Alley.
The policemen made regular con-
tacts at this place and the fateful one oc-
curred on the evening of April 31.
Childers entered alone, and an im-
mediate attempt was made to bribe
him, he says, by Mrs. Akiyama, who
pressed a \$10 bill into his hand. The
officer declares he said nothing to
the woman and she said nothing to
him, because she couldn't speak
English. At that moment, Patrol-
man Hodges entered the hallway
and saw the money in Childers' hand,
pressed there by Mrs. Akiyama.

Mrs. Akiyama was thereupon ar-
rested as a lewd and dissolute per-
son. The case was continued until
last Tuesday, but on that day neither
Childers nor Hodges appeared to
prosecute and the police judge dis-
missed the charges.

Yesterday the patrolmen appeared
in the District Attorney's office and
swore out a complaint charging
bribery. Mrs. Akiyama was taken
to the County Jail before she could
communicate with her attorney,
Guy Eddie.

ELKS SHOW PATRIOTISM.

Are Going to Organize for Active
Service and as Home Guard.

The Patriotic Legion of Los An-
geles, No. 99, for the four com-
panies of men now being formed to
serve their home city, State and
country. Veteran members of the
famous White Squadron drill team,
men who are not eligible because of
age or otherwise to enlist, have
formed two companies of thirty-
two men each, A and B, and have
made written application to the Gov-
ernor for permission to uniform and
arm.

Gov. Stephens has been invited to
attend a big meeting at Elks' Hall
Monday night and deliver an ad-
dress on the subject of patriotism
and how best to aid in this time of
need.

It is proposed also by the Elks to
organize four companies in all, of
thirty-two men each, who will be
subject to call in emergency. In the
meantime these men will meet and
drill and be ready for home protec-
tion duty.

Club's Choice.

(Continued from First Page.)

and we were equally unimpressed
on our consideration for the sacred pic-
turesque old names of Spanish Cal-
ifornia—the railroad companies are
to be notified of our disapproval
of the sinful attempt to change
Pajaro and Gastrovilla into some-
thing plebeianly American.

We likewise, under Mrs. Edward
Dexter Knight's recommendation,
paid a tribute to the publisher of
"The Clubwoman" by agreeing to a
five-year contract.

And we were properly sympathet-
ic with another of Mrs. Knight's
recommendations to the effect that
we be kind and humanly decent to
the citizens of enemy descent in our
midst.

Mrs. R. F. Garner's report of the
Civil Department confirmed our
suspicion that civic programmes
were highly popular with the clubs.
And Mrs. A. L. Forster's con-
gratulatory letter on the subject of
our insistence upon talking Cal-
ifornia History and Landmarks in the
face of a vanishing audience like-
wise our suspicion that the past is
not half so interesting as the pre-
sent and the future.

FOR SOCIAL REFORM.
But there was no vanishing au-
dience for Lillian Burdick Gold-
smith's inspired contribution to the
day, "A New Conception of Civics."
We were not content with giving
Lillian respectful hearing—we
thundered our applause. Other
speakers may have been clear, con-
cise, practical, informing, logical,
but Lillian gave us the polished,
finished product. The artistry of
her delivery led us to the end.

When she hurried at us that de-
moralizing addition for "the flesh-
pots, for innocuous ease, too much
sitting, too much drinking, too much
dancing, the glaring lights of an
overwhelming prosperity" and quoted
Prof. Stale's prayer, "Deliver us,
Oh Lord, from but terrible prosper-
ity," we were stirred to our very
marrow, even if we were eking
out an inadequate living and wear-
ing made-over clothes.

Her pointed allusions to our rabid
reforms for the working girl, who
has but followed the example of
the best people; when she reminded
us that the Statue of Liberty at our
gates was designed by an Italian,
that the noble inscription upon it
was written by Portuguese Jew,
that the money for it was raised by
the pennies of the immigrants to
our shores and concluded with a
plea for the sisterhood of the world,
she succeeded in striking a note that
went home to every heart.

She concluded with a reminder
that "the one gleam in the murky
puddle of blood is that it has been
brought home to the world that
public opinion is a power that the
mightiest of nations cannot afford
to ignore."

IN THE EVENING.
Automobile rides occupied the af-
ternoon and the Donna and Out
banquet at which Mrs. W. C. Musket
presided, was the event of the evening,
at which a musical pro-
gramme was enjoyed which exhib-
ited the talents of the Woman's
Orchestra of Los Angeles, and of the
Schubert and Harmonica clubs. Mrs.
Mary Carrington Miller, Mrs. Wal-
ter Longbottom, Carrie Stone Free-
man, Miss Ines Bushnell, Mrs. Carl
Johnson, Mrs. C. E. Brown, Gloria
Marne Windsor and Katherine Ed-
ison Gray were among the bright
particular artists of the occasion.

Today's programme will be de-
voted chiefly to child welfare in its
many phases and the social health
insurance.

MICHIGAN MEETS.

Former Residents of that State In-
dorse Wilson's Course.

Resolutions supporting President
Wilson in the course he has taken
in the world war were adopted last
night by the Michigan Society. The
members pledged themselves to co-
operate with the government in
every way possible. The meeting
was held in The Times Assembly
Rooms and was attended by 150 per-
sons. A pleasing programme was
served, after which the guests
dined on a sumptuous menu.

Those on the programme included
10-year-old Katie McGee in Scotch
dances; Mrs. Ruth Hall Kennedy,
lyric soprano; Harry Hahn, bar-
itone; Mrs. Bessie Monson, saxo-
phone, and Miss Ruth Shaffner, ac-
companied.

The meeting was presided over by
T. L. O'Brien, president of the so-
ciety, who delivered a short talk on
"Michigan" and presented the prize
banner to Kent county for having
the largest representation for the
last three consecutive meetings.

WHO IS TO PAY?
Acquitted Man Would Rejoin Regi-
ment, but Lacks Transportation.

A conflict is on between the War
Department and the District At-
torney's office as to which shall pay
the way of Alfonso Salazar, ac-
quitted here of the charge of forg-
ing a signature to a money order,
from this city to Honolulu, where
the boy is stationed as a member of
a cavalry troop. Salazar was

brought to San Francisco on an
army transport, and turned over to
the United States authorities, com-
ing here in the custody of a deputy
United States marshal.

Having been discharged by order
of the court, Salazar wants to re-
turn to Hawaii, and the representa-
tives of the War Department and
the District Attorney's office are
"passing the buck" as to which
shall pay the expense. Meanwhile,
Salazar is standing on one foot and
then on another, awaiting the out-
come of the war by telephone.

FIRST BARLEY HERE.
The first car of 1917 barley ar-
rived in Los Angeles yesterday, ten
days ahead of the usual opening of
the season. This barley was raised
in the Imperial Valley and was con-
signed to the Newmark Grain Com-
pany, who had no difficulty in selling

it at \$2.15 per 100 pounds. The ad-
vent of early shipments of barley
from Imperial Valley, the premier
growing section of the United
States, will help greatly in relieving
the situation here, it is asserted.

SUSPECTED OF LARCENY.
Because he could not explain how
\$240 had disappeared from the
cash register of the saloon at No.
148 North Main street, Daniel Glo-
vita, porter in the place, was ar-
rested early yesterday by Detec-
tives Barr, Newstead and Houston
on a charge of suspicion of grand
larceny. Glovita said he had been
struck on the head by an unseen
burglar, who robbed him of \$2.61.
No substantiating evidence could be
found.
